## Lemon

The ideal combination with **Water Based Cream Lemon** is Lemon tarte which is used all over the world. Bakbel Cremfilling Deluxe range is baking stable. After baking, the product stays soft and has a very smooth mouthfeel. When you cut the pie, the product stays perfect. You can have an exact cut, while the Cremfilling stays very stable, also after baking.

## Ready to use from the Pail

The product is designed so that after opening the bucket, the cream filling can be used immediately. You do not need to stir or whisk the product.

## Easy to mix with other products

The product is very stable and has a very pleasant soft taste. Most of our customers use it as a flavouring for buttercream. If you mix the product with milk or whipped cream, you will create a very airy and tasty product. You can fill tartlets and garnish with fresh fruit.

## Use as a flavour

When making Bavaois, the **Water Based Cream** serie fits perfectly in these applications. While the stability is perfect, you can achieve beautiful straight cuts.

## Use in ice cream

The product is this stable, you can easily can pipe it with a noozel of your choice.

## Use as decoration

The **Water Based Cream** serie is perfect for use in ice cream, the photo shows a coconut ice cream. The outside is covered with chocolate to create the “real” look. Decorate the centre and the delicacy is ready to serve.
